

End of Life Care and Advanced CommunicationTitle of the course:

End of Life Care and Advanced Communications in PICU

Date: 02/10/2023, Wednesday

Venue: Lecture Theatre 18 Institute in the Park and Catkin Building MDT rooms, Alder Hey Children's Hospital, Liverpool – L14 5AB

Key Aims/Learning objectives:

1. This is a whole day workshop on end-of-life care in PICU.
2. With case examples and simulation workshop with professional actors for communication scenarios, we aim to provide close to real life experience for participants who are keen to learn about end-of-life care in PICU.
3. This workshop provides participants with knowledge and skills to facilitate end-of-life care in PICU which includes reorientation of care, symptom management, withdrawal of life support, neurological death testing, organ donation, and processes involved in managing death of a child in PICU.

Target Audience:

Anyone involved in managing end-of-life care in PICU.

We will need Name, Email, Hospital, Current position/Job title.

Cost: £200 per person for medics, and £150 per person for nurses and other AHPs

Teaching method:

Lectures, case scenario-based group teaching, and communication workshops.

Number of Candidates:

Max 18 candidates

Closing: when we reach maximum candidates or on September 30th, whichever is earlier.

Faculty profile:

1. Dr. Carla Thomas
Consultant Paediatric Intensivist and Clinical Lead for Organ donation.
2. Dr. Sarah Mahoney
Consultant Paediatric Intensivist.
3. Dr. Susie Holt
Consultant Paediatric Palliative care.
